Let's Pretend

- It's too stormy or windy to burn under Very Good or Excellent
- You can burn an average of 300 acres on a Good day
- You can burn an average of 100 acres on a Fair day
- You can burn an average of 50 acres on a Poor day >20000
- You can only burn in Jan-March and Sept-Dec
 - Can you meet your targets?

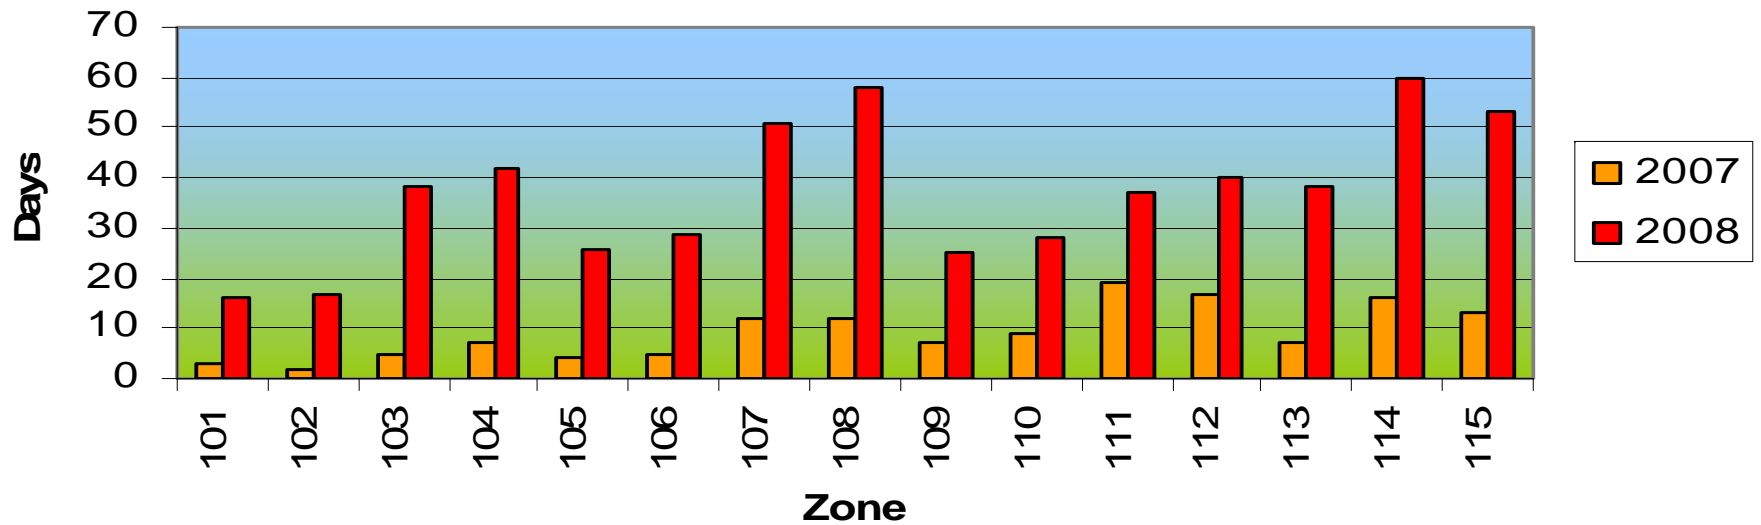

Probably So!

2007	Good Acres	Fair Acres	Poor Acres	Total Acres	2008	Good	Fair	Poor	Total Acres
