PUBLIC NOTICE
For
Air Quality Operating Permit
for Monument Booster Station of DCP Midstream LP

DCP Midstream LP at 10 Desta Drive, Suite 400 West; Midland, TX 79705 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its Monument Booster Station. The facility owner is DCP Midstream LP. The exact location of the facility is at latitude 32 deg, 37 min, 22.8 sec and longitude -103 deg, 15 min, 20.88 sec. To aid in locating this facility, the approximate location is 0.5 miles east of Monument, NM on CR-42 in Lea County. This application file has been assigned an Operating Permit Number P059R2 and TEMPO Agency Interest ID No. 593.

Previously, the facility received an air quality construction permit and is in operation. The main purpose of the facility is to compress pipeline quality natural gas using reciprocating natural gas fired engines. This operating permit application is for a permit renewal. Per 20.2.70.401.C.(4) NMAC, this permitting action involves issuance of a Title V Permit renewal.

The emissions, as established in NSR Permit 123-M6, including revising and recalculating some emissions, and brought forward into this permit are as follows. Parentheses note changes in emissions from previous operating permit – P059-R1. Emissions are expressed in tons per year (tpy). Nitrogen Oxides (NOx) at 1088 tpy (+1); Carbon Monoxide (CO) at 520 tpy (+4); Volatile Organic Compounds (VOC) at 85 tpy (-12.2); Sulfur Dioxide (SO2) at 0.2 tpy (no change); Particulate Matter 10 microns or less (PM10) at 5.2 tpy (no change), and Particulate Matter 2.5 microns or less (PM2.5); and greenhouse gas (CO2e) at <100,000 tpy. The facility is a minor, < 100,000 tpy CO2e, source of greenhouse gas emissions.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance.

The NMED has made a preliminary determination that this facility will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 1, 3, 7, 61, 70, 71, 72, 73, 74, and 82; 40 CFR 50; 40 CFR 63 Subparts A and ZZZZ; 40 CFR 64 Compliance Assurance Monitoring; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before August 19, 2014.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P059R2 by contacting Mike Space at the New Mexico Environment Department, Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816. The Department contact in Santa Fe is Mike Space at 505-476-4336.
