Enterprise Field Services, LLC at PO Box 4324; Houston, TX 77210-4324 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its Rattlesnake Canyon Compressor Station. The exact location of the facility is at latitude 36 deg, 59 min, 15 sec and longitude -107 deg, 46 min, 40 sec. To aid in locating this facility, the approximate location is 6.5 miles northeast of Cedar Hill in San Juan County, New Mexico. This application file has been assigned an Operating Permit Number P232-R1M1 and TEMPO Agency Interest ID No. 1423.

Previously, the plant received an air quality construction permit, if one was required, and is in operation or able to operate. The main purpose of the plant is a natural gas treating plant and compressor station.

This operating permit application is for a permit modification. Per 20.2.70.401.C.(4) NMAC, this permitting action involves updating emission factors for SO2, revising dehydrator operating parameters, adding SSM and Malfunction emissions, and increasing VOC and HAP emissions.

The emissions, as established in NSR Permit 2232-M7, and brought forward into this permit are as follows. Parentheses note changes in emissions from previous operating permit action – P232-R1; emissions are expressed in tons per year (tpy). Nitrogen Oxides (NOx) at 130.1 tpy (-11.7); Carbon Monoxide (CO) at 119.4 tpy (-18.1); Volatile Organic Compounds (VOC) at 67.7 tpy (+33.9); Sulfur Dioxide (SO2) at 5.1 tpy (-0.1); Total Suspended Particulate Matter (TSP) at 3.0 tpy (-2.0 change); Particulate Matter 10 microns or less (PM10) at 3.0 tpy (-2.0 change); and Particulate Matter 2.5 microns or less (PM2.5) at 3.0 tpy (-2.0). The facility is a major, >100,000 tpy CO2, source of green house gas emissions.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance status.

The NMED has made a preliminary determination that this plant will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 7, 61, 70, 71, 72, 73, 77, and 82; 40 CFR 50; 40 CFR 60 Subparts A, Dc, and JJJ; 40 CFR 63 Subparts A, HH, and ZZZZ; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before April 7, 2013.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P232-R1M1. Contact the New Mexico Environment Department, Air Quality Bureau, Operating Permit Unit, 1301 Siler Rd, Bldg B, Santa Fe, New Mexico 87507-3113.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, Operating Permits Unit, 1301 Siler, Bldg B, Santa Fe, New Mexico 87507-3113. The Department contact in Santa Fe is Melinda Owens at 505-476-4341.
