PUBLIC NOTICE

For
Air Quality Operating Permit
for 29-6 No2 Central Delivery Point of Williams Four Corners LLC

Williams Four Corners LLC, at 188 County Road 4900, Bloomfield, NM 87413 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its 29-6 No2 Central Delivery Point. The owner of this plant is Williams Four Corners LLC. The exact location of the facility is at latitude 36 deg, 44 min, 49.8 sec and longitude -107 deg, 26 min, 43.8 sec. To aid in locating this facility, the approximate location is 5 miles north of Highway 64, mile marker 102.3 and approximately 18 Miles east of Blanco, New Mexico, in Rio Arriba County. This application file has been assigned an Operating Permit Number P038R3 and TEMPO Agency Interest ID No. 1007.

The main purpose of the facility is to compress and dehydrate pipeline quality natural gas for pipeline transmission. This operating permit application is for a permit renewal. Per 20.2.70.401.C.(4) NMAC, this permitting action involves renewal of their Title V Permit.

The emissions, as established in NSR Permit 1035-M10, increased Volatile Organic Compound limits by 14 tons due to incorporating and permitting routine startup, shutdown and maintenance events, and equipment malfunctions. This change, and other emissions are brought forward into this permit as follows: Parentheses note changes in emissions from previous operating permit – P038R2. Emissions are expressed in tons per year (tpy). Nitrogen Oxides (NOx) at 238.8 tpy (+0.6); Carbon Monoxide (CO) at 323.4 tpy (+0.5); Volatile Organic Compounds (VOC) at 275.8 tpy (+12.5); Particulate matter (PM_{10}) at 5.5 tpy (not previously reported); PM_{2.5} at 5.5 tpy (not previously reported); and green house gas (CO_{2}e) at 126,222.4 tpy.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance.

The NMED has made a preliminary determination that this facility will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts `1, 7, 61, 70, 71, 72, 73, 74, and 82; 40 CFR 50; 40 CFR 63 Subparts A, HH, and ZZZZ; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before January 23, 2014.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P038R3 by contacting Michael Space at the New Mexico Environment Department, Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816. The Department contact in Santa Fe is Michael Space at 505-476-4336.
