Williams Four Corners LLC at 188 County Road 4900, Bloomfield, NM 87413 has submitted an air quality operating permit application to the New Mexico Environment Department (NMED) for an air quality operating permit for its 32-9 Central Delivery Point (CDP). The owner of this facility is Williams Four Corners LLC. The exact location of the facility is at latitude 36 deg, 53 min, 45 sec and longitude -107 deg, 51 min, 39 sec. To aid in locating this facility, the approximate location is 9 miles northeast of Aztec, San Juan County, New Mexico. This application file has been assigned an Operating Permit Number P030-R3 and TEMPO Agency Interest ID No. 1226.

Previously, the facility received an air quality construction permit and is in operation.

The main purpose of the facility is to compress and dehydrate pipeline quality natural gas for pipeline transmission with natural gas-fired reciprocating internal combustion engines.

This operating permit application is for a permit renewal. Per 20.2.70.401.C.(4) NMAC, this permitting action involves permitting blowdown emissions due to startups, shutdowns, and maintenance; removing 4 dehydrators; increasing emissions from remaining 4 dehydrators; permitting 10 tpy of VOC emissions due to malfunctions.

The emissions, as established in NSR Permit 924-M3, and brought forward into this permit are as follows. Parentheses note changes in emissions from previous operating permit – P030R2. Emissions are expressed in tons per year (tpy). Nitrogen Oxides (NOx) at 160.0 tpy (-0.4); Carbon Monoxide (CO) at 282.8 tpy (-0.4); Volatile Organic Compounds (VOC) at 135.8 tpy (-20.2); Particulate Matter 10 microns or less (PM10) at 3.7 tpy (no change), and Particulate Matter 2.5 microns or less (PM2.5) 3.7 tpy (no change). The facility is a major, >100,000 tpy CO2e/minor source of greenhouse gas emissions.

The NMED has conducted a preliminary review of the information submitted with the permit application. This review included evaluation of the emission rates and applicable requirements to determine compliance.

The NMED has made a preliminary determination that this facility will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 7, 61, 70, 71, 72, 73, 74, 82; 40 CFR 50; 40 CFR 63 Subparts A, HH, ZZZZ; and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality operating permit on or before November 20, 2013.

Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing on Operating Permit Number P030R3 by contacting Cember Hardison at the New Mexico Environment Department, Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816.

Written requests for public hearing must state the nature of the issues proposed to be raised in the hearing. Comments must be based on the requirements of the applicable state and federal air quality regulations and the Clean Air Act. Comments or hearing requests must be received within 30 days after the public notice is published.

The permit application, draft permit and relevant supporting materials are currently available for review at the Air Quality Bureau, 525 Camino de los Marquez Suite 1, Santa Fe, NM 87505-1816. The Department contact in Santa Fe is Cember Hardison at 505-476-4346.
