## Preliminary Determination for an Air Quality Permit for

Williams Four Corners LLC, 188 County Road 4900, Bloomfield, NM has submitted an air quality permit application to the Air Quality Bureau (AQB), New Mexico Environment Department (NMED) for an air quality permit to modify the Trunk B Compressor Station. The application file has been assigned Permit No. 1832-M1 and TEMPO Agency Interest ID No. 1350. The exact location of the facility is at latitude 36 deg, 51 min, 49 sec and longitude -107 deg, 41 min, 12 sec. To aid in locating this facility, the approximate location is 17 miles east of Aztec off County Road 4900 in San Juan County, New Mexico.

The proposed modification to this natural gas compressor station will consist of adding 22.0 tons per year VOC emissions from the blow down of natural gas due to shut downs and maintenance, and 10 tons per year of VOC emissions due to malfunctions.

Total air pollutant emissions to the atmosphere are estimated to be approximately Nitrogen Oxides (NO<sub>x</sub>) at 138.6 tons per year (tpy); Carbon Monoxide (CO) at 244.3 tpy; Volatile Organic Compounds (VOC) at 124.4 tpy; Sulfur Dioxide (SO<sub>2</sub>) at 1.0 tpy; Total Suspended Particulate Matter (TSP) at 3.1 tpy, Particulate Matter 10 microns or less (PM<sub>10</sub>) at 3.1 tpy, and Particulate Matter 2.5 microns or less (PM<sub>2.5</sub>) at 3.1 tpy. These emission estimates could change slightly during the course of NMED's review of the application.

The NMED has conducted a preliminary review of the information submitted with the permit application and determined that the applicable regulatory requirements will be met.

Based on the applicant's analysis, a preliminary determination is that this facility will comply with the requirements of Title 20, New Mexico Administrative Code (NMAC), Chapter 2, Parts 72 and the New Mexico Air Quality Control Act. Therefore, the preliminary intent of NMED is to issue the air quality permit on or before October 25, 2011. This source is a minor source according to 20.2.74 NMAC, PSD.

To ensure compliance with state and federal air regulations, the permit is expected to include conditions that limit air emissions and conditions that will require record keeping and reporting to the NMED.

The permit application is available for review in electronic or hard copy at the Air Quality Bureau Office, 1301 Siler Road, Building B, Santa Fe, New Mexico. To arrange viewing of this application, contact Teri Waldron, at 505-476-4355 or [teri.waldron@state.nm.us](mailto:teri.waldron@state.nm.us). The permit application is also available at the NMED Farmington Office, located at 3400 Messina, Suite 500, Farmington, NM 87402 for public review.

All interested persons have thirty (30) days from the date this notice is published, to notify NMED in writing of their interest in the permit application. The written comments should refer to the company name, site name and Permit No. (or send a copy of this notice along with your comments). The written comments must state the nature of the issues raised and how it relates to the requirements of applicable state and federal air quality regulations and the Clean Air Act. The written comments should be mailed to Cember Hardison, New Mexico Environment Dept., Air Quality Bureau, Permit Section, 1301 Siler Road, Building B, Santa Fe, New Mexico 87507-3113.

The NMED will notify all persons, who have provided written comments, as to when and where the NMED's analysis may be reviewed. Although all written comments will be made part of the public

record, any person who does not express interest in writing before the end of this first thirty (30) day period will not receive such notification.

If the NMED receives written public comment before the end of NMED's thirty (30) day public notice, the NMED's analysis will be made available for review for thirty (30) days at the NMED Farmington office before the permit will be issued. Written comments on the analysis or permit application may be submitted to the NMED during this second thirty (30) day period or at any time before the permit is issued or denied.

Questions or comments not intended to be part of the public record can be directed to Cember Hardison at 505-476-4346. General information about air quality and the permitting process can be found at the Air Quality Bureau's web site. The regulation dealing with public participation in the permit review process is 20.2.72.206 NMAC. This regulation can be found in the "Permits" section of this web site.
