NEW MEXICO ENVIRONMENTAL IMPROVEMENT BOARD
NOTICE OF STATE IMPLEMENTATION PLAN AND RULEMAKING HEARING

The New Mexico Environmental Improvement Board ("Board") will hold a public hearing on June 1, 2011 at 9:00 a.m. in Room 307 at the State Capitol Building (Roundhouse), 490 Old Santa Fe Trail, Santa Fe, New Mexico, continuing on June 2 and, if necessary, June 3 and 4, 2011 in Farmington, New Mexico at San Juan College, 4601 College Blvd. The New Mexico Environment Department ("NMED") is proposing to adopt revisions to the New Mexico State Implementation Plan for Regional Haze. The proposed plan establishes requirements for New Mexico to meet the requirements of 40 CFR Section 51.309, including a determination of Best Available Retrofit Technology for nitrogen oxides and particulate matter for the San Juan Generating Station. Revisions to 20.2.73 NMAC and 20.2.81 NMAC are also proposed.

The proponent of this regulatory adoption and revision is the New Mexico Environment Department ("NMED").

The purpose of the public hearing is to consider and take possible action on a petition from NMED regarding revisions to New Mexico's State Implementation Plan under the federal regional haze rule, 40 CFR Section 51.309. The regional haze rule requires states to submit State Implementation Plans to address visibility impairment caused by regional haze in 156 federally-protected parks and wilderness areas, known as Class Is areas, including nine such areas in New Mexico. Revisions to 20.2.73 NMAC and 20.2.81 NMAC are also proposed to conform those rules to federal requirements for the regional haze program.

NEW MEXICO ENVIRONMENTAL IMPROVEMENT BOARD
NOTICE OF STATE IMPLEMENTATION PLAN HEARING

The New Mexico Environmental Improvement Board ("Board") will hold a public hearing on June 2, 3 or 4, 2011 in Farmington, New Mexico at San Juan College, 4601 College Blvd. The hearing will commence immediately following the hearing in EIB No. 11-01 (R), scheduled for June 2 - 4 (as necessary), 2011 at the same location. The New Mexico Environment Department ("NMED") is proposing to adopt revisions to the New Mexico State Implementation Plan to satisfy the requirements of Clean Air Act Section 110(a) (2)(D)(ii) with respect to visibility for the 8-hour ozone and particulate matter under 2.5 microns in diameter (PM 2.5) National Ambient Air Quality Standards promulgated in July 1997.

The proponent of this regulatory adoption and revision is the New Mexico Environment Department ("NMED").

The purpose of the public hearing is to consider and take possible action on a petition from NMED regarding revisions to New Mexico's State Implementation Plan (SIP). The "Good Neighbor" provision of the Clean Air Act (CAA) at Section 110(a)(2)(D)(i) requires that each state implementation plan (SIP) submitted to EPA must address emissions from within the state that affect other states through interstate transport. The NMED's Best Available Retrofit Technology (BART) determination for nitrogen dioxide for the San Juan Generating Station (SJGS) calls for an emission rate of 0.23 pounds per million British thermal units (lbs/ mmBtu). In order to address the separate requirement to satisfy Section 110(a)(2)(D) for sulfur dioxide, SJGS has agreed to a permit modification to implement a limit of 0.15 lbs/mmBtu for sulfur dioxide. These nitrogen dioxide and sulfur dioxide emission limits ensures that New Mexico will meet or exceed the expectations of neighboring states for visibility.

The proposed revised plan may be reviewed during regular business hours at the NMED Air Quality Bureau office, 1301 Siler Road, Building B, Santa Fe, New Mexico. The full text of NMED's proposed State Implementation Plan is available on NMED's web site at www.nmenv.state.nm.us, or by contacting Rita Bates at (505) 476-4304 or by email at rita.bates@state.nm.us.

The hearing will be conducted in accordance with 20.1.1 NMAC (Rulemaking Procedures – Environmental Improvement Board), the Environmental Improvement Act, Section 74-1-9 NMSA 1978, the Air Quality Control Act, Section 74-2-6 NMSA 1978, and other applicable procedures.

All interested persons will be given reasonable opportunity at the hearing to submit relevant evidence, data, views and arguments, orally or in writing, to introduce exhibits, and to examine witnesses. Persons wishing to present technical testimony must file with the Board a written notice of intent to do so. The notice of intent shall:

1. Identify the person for whom the witness(es) will testify;

3. Include a copy of the direct testimony in narrative form of each technical witness and state the anticipated duration of the testimony of that witness;
4. Attach each exhibit anticipated to be offered by that person at the hearing; and
