Dear Dry Cleaning Owner/Operator:

The Small Business Environmental Assistance Program (SBEAP) is writing to request updated information from your facility. We would like you to confirm that you do not use perchloroethylene (perc) by completing the enclosed Current Status form.

The form asks if you are a drop off store that does not use perc dry cleaning equipment on site or if you use a different type of solvent and what that might be. We would appreciate it if you would mail in the enclosed form to the Air Quality Bureau by July 28, 2008. If you own more than one drop off store, please complete a separate form for each facility.

Thank you in advance for your cooperation and please submit the form to us at the address below. If you have any questions, you can contact SBEAP at (505) 222-9507 or 222-9583.

NMED Air Quality Bureau, 5500 San Antonio Dr. NE, Albuquerque NM 87109
